

INTRODUCTION

Zhejiang Yongyuan Valve Co., Ltd, which was previously a State-owned enterprise of Zhejiang Yongkang valve factory that founded in 1967 with a history of almost 50 years, is one of the key enterprises of valve manufacturing in Zhejiang Province. We manufacture ball valves, globe valves, gate valves, butterfly valves, check valves, including some valve parts, and the products are mainly used in petroleum, chemical industry. Since the reorganization in 2000, the company have made a great progress and got a sustained, fast and sound development.

The company covers an area of 60000 square meters, with 40000 square meters of workshop, with full lines of equipment from production, inspection to testing, like two lines of sand casting and two lines of investment casting, 208 sets of mechanical processing equipment. Our production capacity reaches 6800 tons for different kinds of high, medium and low pressure valves, with over 50 models and 600 kinds of specifications. The company attaches great importance to standardized management, and has successfully passed the ISO9001-2008 international quality system certification, ISO14001-2004 environmental management system certification, OHSAS18001-2007 occupational health and safety management system certification; and we get TS manufacture license (The national special equipment for pipeline and valve) in 2002, and API 6D (American Petroleum Institute) license in 2009.

Over the years, the company was focused on the valve manufacturing, adhering to the "delicacy and efficiency" development concept, and the principle of "Customer is the God, quality is the life", also actively advocates the spirit of "craftsmen". And in practice, the company insists on prudent management, continuous innovation, opening up and cooperation, in order to form its own unique production technology management system, and provide users with high-quality services. The company has gained the reputation of outstanding enterprises in Zhejiang Province, and also got feedback from customer's satisfaction and rewards of excellent business performance. Nowadays we're one of the council members of China Valve Association, and one of the compilation enterprises of National Ball Valve Standard, designated as one of the best Chinese chemical equipment suppliers. We will keep effort on improving product quality with the customers all over the world.
